---

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience designing, building, and optimizing scalable data pipelines for analytics, business intelligence, and AI-driven applications. Strong foundation in Python, SQL, ETL processes, and relational data modeling. Hands-on experience with Spark, PySpark, Kafka, Snowflake, and cloud platforms. Eager to grow into Databricks and AI/ML data engineering projects.

TECHNICAL SKILLS

Core: Python, SQL, ETL/ELT, Relational Data Modeling

Big Data: Apache Spark, PySpark, Hadoop, Kafka, Snowflake

Cloud: AWS (S3, Glue, Redshift), Azure basics, GCP basics, distributed systems

Data Engineering: Scalable data pipelines, data quality, performance optimization

Analytics Support: BI datasets, data models for ML features

Tools: Git, Airflow, Docker, Power BI

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Designed, developed, and maintained scalable data pipelines supporting enterprise analytics and business intelligence initiatives.
- Built efficient ETL workflows using Python, SQL, PySpark, and Apache Spark for large-scale data processing.
- Collaborated with cross-functional teams to create optimized data models and reliable processing systems on AWS.
- Implemented Kafka-based streaming pipelines for real-time data ingestion and event processing.
- Worked with Snowflake and Redshift data warehouses for curated analytics datasets.
- Monitored, troubleshooted, and optimized data platforms for performance, reliability, and scalability.
- Ensured high data quality through validation frameworks and automated testing in production pipelines.
- Continuously upskilled in cloud data engineering, Spark optimization, and modern ETL best practices.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python and SQL ETL scripts for relational data modeling and warehouse loading.
- Built data integration services connecting multiple source systems via REST APIs.
- Supported analytics teams with clean, reliable datasets for reporting and exploratory analysis.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Databricks Fundamentals (in progress)

KEY PROJECTS

Enterprise Analytics Pipeline: Spark and Kafka-based pipeline on AWS supporting BI dashboards and ML feature stores.

ETL Optimization Project: Refactored batch pipelines reducing processing time by 40% through PySpark tuning and partitioning strategies.
