---

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of hands-on experience designing, building, and operating scalable ETL/ELT pipelines on cloud-native data platforms. Proficient in Python, Apache Spark, SQL, Databricks, and Azure data services (Data Factory, Data Lake, Synapse Analytics). Experienced delivering enterprise data integration solutions, supporting analytics and data science teams, and collaborating with architects and stakeholders across distributed teams.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark, Java

Big Data: Apache Spark, Hadoop, Databricks, ETL/ELT pipeline design

Azure: Data Factory, Data Lake, Synapse Analytics, cloud-based data platforms

Cloud: AWS (S3, Glue, Redshift), Azure, GCP (BigQuery) exposure

Data Engineering: Data modeling, data integration, data warehousing, incremental loads

DevOps: Git, Docker, CI/CD, containerization, microservices

Tools: Apache Airflow, Kafka, PostgreSQL, MySQL

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Designed and developed scalable ETL/ELT pipelines processing 5M+ records daily across PostgreSQL, S3, and cloud data warehouses.
- Built PySpark jobs on AWS Glue and Databricks for large-scale data transformations, reducing batch processing time by 40%.
- Implemented data integration workflows connecting divergent datasets for analytics and data science use cases.
- Developed Azure Data Factory pipelines for client migration projects involving Data Lake and Synapse Analytics.
- Ensured data quality through automated validation, schema enforcement, and pipeline observability across production workloads.
- Collaborated with architects, product owners, and analytics teams to translate business requirements into technical data solutions.
- Maintained Git-based version control with code reviews, branching workflows, and agile sprint delivery.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Built Python and SQL ETL scripts for batch ingestion from REST APIs, CSV files, and relational databases.
- Supported data warehouse loading and query optimization for PostgreSQL and MySQL analytics workloads.
- Participated in cross-functional team delivery with strong communication and problem-solving across stakeholders.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Databricks Fundamentals (in progress)

KEY PROJECTS

Cloud Data Platform Pipeline: End-to-end Spark and Airflow pipeline on AWS/Azure with medallion-style layering for analytics and BI consumption.

Multi-Source ETL Framework: Python-based integration framework supporting divergent datasets with schema validation and automated testing.
