PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building and maintaining data ingestion pipelines, ETL/ELT workflows, and analytics-ready datasets. Proficient in Python and SQL for data transformation, API-based ingestion with pagination and retry handling, and workflow orchestration using Apache Airflow. Experienced with cloud data warehouses including BigQuery, data validation checks, pipeline monitoring, and collaborating with marketing and analytics teams on campaign performance reporting.

TECHNICAL SKILLS

Languages: Python, SQL

Data Engineering: ETL/ELT workflows, API ingestion, microservices, data validation, pipeline monitoring

Orchestration: Apache Airflow, workflow scheduling, failure troubleshooting

Cloud & Warehousing: GCP BigQuery, AWS S3, Redshift, PostgreSQL

API Integration: REST APIs, pagination, retries, JSON processing, error handling

Analytics: Campaign performance datasets, funnel tracking, marketing metrics (CTR, CPC, conversions)

Tools: Git, Docker, Grafana, documentation for pipelines and datasets

---

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Built and maintained data ingestion pipelines from REST APIs and internal sources with pagination, retry logic, and schema validation.
- Wrote efficient Python and SQL for data transformation, cleansing, and analytics-ready dataset delivery.
- Supported ETL/ELT workflows and microservices ensuring timely data availability for reporting and dashboard consumers.
- Orchestrated 25+ Airflow DAGs for daily and hourly pipelines with monitoring, alerting, and failure troubleshooting.
- Implemented basic and advanced data validation checks including row counts, null thresholds, and freshness monitoring.
- Created datasets for performance reporting and funnel tracking used by analytics and business stakeholders.
- Collaborated with cross-functional teams to translate business requirements into SQL queries and curated datasets.
- Maintained comprehensive documentation for pipelines, datasets, and data definitions supporting operational reliability.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python ETL scripts for API and CSV ingestion with error handling and logging.
- Built SQL transformations and reporting views for sales analytics and operational dashboards.
- Assisted in pipeline debugging, performance improvements, and data issue resolution.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

API Ingestion Platform: Python + Airflow pipeline ingesting multi-source API data with validation and BigQuery-compatible transformations.

Campaign Analytics Dataset: SQL and Python workflows delivering funnel and performance metrics for marketing reporting teams.
