PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building scalable data pipelines and analytics solutions with strong ETL/ELT and pipeline design expertise. Advanced SQL skills with solid data warehousing and dimensional modeling knowledge including star/snowflake schemas, facts, dimensions, and metrics. Hands-on GCP experience with BigQuery, Cloud Storage, Composer, and Pub/Sub, plus proficiency in Python for data processing and automation.

TECHNICAL SKILLS

Languages: Python, SQL

Cloud (GCP): BigQuery, Cloud Storage, Cloud Composer, Pub/Sub, Dataflow (exposure)

Data Warehousing: Dimensional modeling, star/snowflake schemas, facts/dimensions/metrics, incremental loads

Data Engineering: ETL/ELT pipeline design, data quality validation, lakehouse patterns

BI/Reporting: Power BI, Tableau, Looker (exposure), dashboard development

Also Proficient: AWS (S3, Glue, Redshift), Apache Airflow, dbt (exposure), Git

---

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Built and maintained scalable ETL/ELT pipelines processing 5M+ records daily with advanced SQL transformations and Python automation.
- Designed star-schema data models with facts, dimensions, and metrics for BI dashboards used by 50+ business users.
- Developed BigQuery-compatible SQL transformations and migrated analytics workloads to cloud data warehouse patterns.
- Implemented dimensional modeling best practices including slowly changing dimensions and incremental load strategies.
- Built Airflow/Composer-style orchestration workflows with data quality gates and SLA monitoring.
- Optimized SQL queries and warehouse performance, reducing report runtime from 8 minutes to under 2 minutes.
- Created Power BI dashboards and reporting views translating business requirements into analytics-ready datasets.
- Collaborated with cross-functional teams on data governance, documentation, and pipeline reliability standards.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python and SQL ETL scripts for multi-source ingestion with schema validation.
- Built dimensional models and SQL views for sales and operations reporting.
- Maintained PostgreSQL databases with indexing and query tuning for analytics workloads.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- GCP fundamentals (in progress)

KEY PROJECTS

Cloud Analytics Pipeline: ETL/ELT pipeline with dimensional modeling, BigQuery transformations, and Power BI reporting layer.

Data Warehouse Modernization: Star-schema redesign with incremental loads and automated data quality validation.
