PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building scalable data pipelines, data lake architectures, and analytics-ready datasets using Python, SQL, Spark, and cloud platforms. Skilled in API/database ingestion, ETL/ELT, data modeling, data quality, monitoring, and delivering reliable datasets for product analytics, engineering metrics, and reporting.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark, JavaScript/TypeScript exposure

Data Engineering: ETL/ELT, data modeling, data warehousing, API ingestion, telemetry pipelines

Cloud: Microsoft Azure (ADF, Databricks, Data Lake), AWS (Redshift, Glue concepts)

BI & Tools: Power BI, dbt, Git, Azure DevOps, Great Expectations, Delta Lake

Practices: Data quality, governance, monitoring/alerting, documentation, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Associate Data Engineer | Celebal Technologies | Pune, India

August 2024 – Present

- Built and maintained production ETL/ELT pipelines using Azure Data Factory, Databricks, and PySpark processing large-scale enterprise datasets.
- Implemented Delta Lake lakehouse architecture with Bronze/Silver/Gold medallion layers, Unity Catalog governance, and row/column-level security.
- Developed CDC-based ingestion and metadata-driven pipeline frameworks for reliable batch data movement across Azure Data Lake and curated layers.
- Applied data quality checks using Great Expectations and validation frameworks, reducing silent data failures in downstream analytics.
- Optimized Spark jobs and SQL transformations for performance, cost efficiency, and scalability on Azure Databricks.
- Created dbt models, architecture documentation, and solution proposals; mentored junior engineers on data engineering best practices.
- Contributed to POCs involving Delta Live Tables (DLT), Asset Bundles, and modern lakehouse platform design.
- Integrated data from APIs, databases, and batch sources into curated analytics layers with traceability and validation.
- Built monitoring and data quality checks for production pipelines supporting engineering and product analytics use cases.

Software Developer Intern | Upraised | Bengaluru, India

May 2024 – August 2024

- Delivered production features using React, TypeScript, and GraphQL; resolved 50+ bugs and shipped 5 key product enhancements.
- Worked with data querying patterns via GraphQL/Apollo in a monorepo microfrontend architecture.

EDUCATION

Bachelor of Technology in Computer Engineering

DIT University, Dehradun | 2020 – 2024 | CGPA: 8.4

CERTIFICATIONS

- 5x Microsoft Certified (including Azure Data Engineer Associate DP-203)
- 4x Databricks Certified (Data Engineer, Lakehouse, Fundamentals, Generative AI)
