PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building scalable ETL/ELT pipelines on AWS using Python, Snowflake, Apache Airflow, and SQL. Proficient in cloud-native data services, data warehouse management, and workflow orchestration. Strong track record delivering reliable data infrastructure for analytics and business intelligence with automated testing and Git-based development workflows.

TECHNICAL SKILLS

Core: Python, SQL, Snowflake, Apache Airflow, ETL/ELT

Cloud: AWS (S3, Glue, Lambda, Redshift, EC2), cloud-native data services

Data Platforms: Snowflake data warehouse, PostgreSQL, MySQL, data lakes

Orchestration: Airflow DAGs, scheduled workflows, dependency management

DevOps: Git, CI/CD, Docker, Jenkins

Big Data: PySpark, Apache Spark basics

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Built scalable ETL/ELT pipelines on AWS using Python, SQL, and Airflow orchestrating 25+ production workflows.
- Designed and managed Snowflake-compatible data warehouse schemas with incremental load patterns and performance optimization.
- Developed Python scripts for data ingestion from REST APIs, S3, and relational databases into cloud data stores.
- Implemented Apache Airflow DAGs for workflow scheduling, monitoring, retries, and alerting across data pipelines.
- Ensured data quality through automated validation checks, schema enforcement, and pipeline observability.
- Optimized SQL queries and warehouse performance reducing processing costs and improving report delivery times.
- Collaborated with analytics teams to deliver curated datasets for business intelligence and reporting.
- Maintained Git-based version control with branching strategies, pull requests, and code reviews.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python and SQL ETL scripts for batch data processing and warehouse loading.
- Managed PostgreSQL and MySQL databases with query optimization for analytics workloads.
- Supported AWS cloud data migrations and pipeline documentation for team knowledge sharing.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

Snowflake Migration Pipeline: Built AWS-to-Snowflake ETL pipeline with Airflow orchestration and automated data quality validation.

Cloud ETL Framework: Python-based ingestion framework for multi-source data with SQL transformations and S3 staging.
