PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building, managing, and optimizing ETL/ELT pipelines for data warehouses and marketing analytics platforms. Deep expertise in SQL (T-SQL, stored procedures, query tuning) and hands-on experience with Azure Data Factory, Databricks, Azure Data Lake, and cloud-based data integration. Skilled in data validation, reconciliation, monitoring, and production pipeline reliability.

TECHNICAL SKILLS

Languages: SQL, T-SQL, Python, PySpark, Spark SQL

Azure Data Platform: Azure Data Factory, Azure Databricks, Azure Data Lake Storage, Azure Storage Accounts, Azure Key Vault

Microsoft Stack: SQL Server, SSIS (migration exposure), Microsoft Fabric (exposure), Power BI

Data Engineering: ETL/ELT pipeline design, data ingestion from APIs/files/databases, data validation, reconciliation, monitoring, alerting

Databases: Microsoft SQL Server, PostgreSQL, MySQL, Amazon Redshift

Tools: Git, Apache Airflow, Grafana, logging and alerting frameworks

---

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Built and managed 25+ production ETL/ELT pipelines orchestrating daily and hourly data loads into data warehouse environments.
- Designed reliable data ingestion and transformation processes from REST APIs, flat files, cloud storage, and relational databases.
- Wrote, optimized, and troubleshot complex SQL including CTEs, window functions, stored procedures, and indexing strategies reducing query runtime by 75%.
- Implemented data validation, reconciliation, monitoring, logging, and alerting for production pipelines reducing silent failures by 90%.
- Developed PySpark and Python transformation logic on Databricks for large-scale data processing and analytics workloads.
- Supported production data workloads including troubleshooting failures, optimizing performance, and improving pipeline reliability.
- Collaborated with analytics teams to deliver curated datasets for marketing and business intelligence reporting.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed SQL and Python ETL scripts to ingest data from APIs, CSV files, and relational databases into analytics stores.
- Maintained SQL Server and PostgreSQL databases with indexing, views, and query performance tuning.
- Built Power BI dashboards and SQL views for sales and operations reporting with scheduled data refresh.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

Azure Data Integration Pipeline: End-to-end ADF + Databricks pipeline ingesting multi-source data with validation gates, monitoring, and warehouse loading.

Marketing Analytics Warehouse: SQL Server and cloud ETL workflows delivering client-ready datasets with reconciliation and audit logging.
