---

## PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience in data architecture, ETL processes, and data modeling for scalable, reliable data solutions. Hands-on with Apache Airflow, Apache Spark, and cloud-based data services including AWS Redshift, Azure Synapse patterns, and Google BigQuery. Strong DataOps mindset with experience optimizing data workflows for efficiency, scalability, and reliability. Effective collaborator with cross-functional teams and stakeholders in consulting and enterprise environments.

---

## TECHNICAL SKILLS

**Data Engineering:** ETL/ELT, data warehousing, data modeling, data architecture, DataOps principles

**Frameworks:** Apache Airflow, Apache Spark, PySpark

**Cloud Data Services:** AWS Redshift, S3, Glue; Azure Synapse Analytics (familiar); Google BigQuery

**Languages:** Python, SQL (advanced)

**Data Integration:** Multi-source ingestion, API integration, schema validation, data flow optimization

**Tools:** Git, Docker, Grafana, CI/CD pipelines

---

## PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

**June 2023 – Present**

- Contributed to complex data engineering projects designing and implementing scalable data solutions for analytics and reporting use cases.
- Built and optimized ETL processes and data pipelines using Apache Airflow and PySpark, processing 5M+ records daily with high reliability.
- Applied DataOps principles with automated testing, monitoring, and version-controlled pipeline deployments.
- Designed star-schema data models and data warehousing layers supporting efficient analytics and business intelligence.
- Implemented data integration across REST APIs, relational databases, and file-based sources with seamless data flow.
- Utilized AWS Redshift and S3 for cloud-based data processing and analytics, optimizing storage and compute performance.
- Collaborated with cross-functional teams and stakeholders to understand data requirements and deliver robust solutions.
- Documented pipeline architectures, data lineage, and best practices for knowledge sharing and team onboarding.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

**January 2022 – May 2023**

- Assisted in designing and implementing ETL workflows for enterprise data integration projects.
- Developed Python and SQL data pipelines with data modeling and warehouse loading for analytics workloads.
- Supported data warehousing initiatives with PostgreSQL optimization and schema design.

---

## EDUCATION

**Bachelor of Technology in Computer Science**

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

## CERTIFICATIONS

- AWS Certified Cloud Practitioner

## KEY PROJECTS

**Scalable Data Pipeline Platform:** Airflow-orchestrated ETL with PySpark transforms, cloud data warehouse loading, and automated data quality validation.

**Enterprise Data Integration:** Multi-source data pipeline project delivering reliable, auditable data flows for cross-functional analytics teams.
