Sparsh Rawat

Data Engineer | Python, SQL, PySpark, Airflow, AWS | 2+ Years

Dehradun, Uttarakhand, India | rawat.sparsh@feg.eu | +91-XXXXXXXXXX | linkedin.com/in/spa22 | github.com/Sparsh225

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building scalable ETL/ELT pipelines, real-time data architectures, and cloud-based data solutions. Proficient in Python, SQL, Apache Spark (PySpark), Apache Airflow, and AWS services including Glue, Lambda, S3, and EC2. Experienced in REST API integrations, data quality monitoring, alerting systems, and optimizing data storage and processing costs. Passionate about enabling data-driven decision-making in high-impact organizations.

TECHNICAL SKILLS

Python | SQL | PySpark | Apache Spark | Apache Airflow | Apache Kafka | AWS Glue | AWS Lambda | Amazon S3 | Amazon EC2 | Amazon Redshift | ETL/ELT | REST API Integration | NoSQL Databases | Data Pipeline Development | Real-Time Data Processing | Data Quality | CI/CD | Git

PROFESSIONAL EXPERIENCE

Associate Data Engineer | Celebal Technologies

August 2024 – Present | Pune, India (Remote/Hybrid)

- Designed and implemented ETL/ELT pipelines using Azure Data Factory, PySpark, and Databricks for enterprise analytics workloads.
- Built scalable data processing workflows with Apache Spark handling large-scale datasets with performance optimization.
- Developed REST API integration pipelines for ingesting third-party and application data into centralized data platforms.
- Implemented data quality validation frameworks using Great Expectations to detect and alert on data discrepancies.
- Optimized SQL queries and pipeline performance, reducing data processing time and cloud compute costs.
- Managed CI/CD deployments for data pipelines using Azure DevOps and Git version control.
- Collaborated with BI and analytics teams to deliver clean, reliable datasets for dashboards and reporting.

Software Developer Intern | Upraised

May 2024 – August 2024 | Bengaluru, India

- Developed data querying solutions using GraphQL and TypeScript, improving application data access patterns.
- Resolved 50+ production bugs and delivered 5 key features, strengthening software reliability.

PROJECTS

- Enterprise Lakehouse Pipeline — Built medallion architecture pipelines on Databricks with Delta Lake, CDC ingestion, and automated data quality checks.

EDUCATION

- Bachelor of Technology, Computer Engineering — DIT University, Dehradun (2020–2024) | CGPA: 8.4

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
- Databricks Certified Data Engineer Associate & Professional
- Databricks Lakehouse Fundamentals | Databricks Generative AI Fundamentals
- Microsoft Azure Data Fundamentals (DP-900) | Azure Fundamentals (AZ-900)
