---

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience designing and building ETL pipelines, data warehouses, and analytics infrastructure for enterprise clients. Strong SQL skills with hands-on experience in data warehousing, pipeline development, and data integration across multiple sources. Proficient in Python for data processing and automation. Experienced working remotely with cross-functional teams in consulting and enterprise environments.

TECHNICAL SKILLS

Languages: Python, SQL (advanced), shell scripting

Data Engineering: ETL/ELT pipeline design, data warehousing, data modeling, incremental loads

Databases: PostgreSQL, MySQL, Amazon Redshift, SQL Server

Cloud: AWS (S3, Glue, Lambda), Azure Data Factory (familiar)

Orchestration: Apache Airflow, cron-based scheduling

Tools: Git, Docker, Power BI, Grafana

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Designed and built production ETL pipelines processing 5M+ records daily from REST APIs, CSV/JSON files, and relational databases into data warehouses.
- Developed advanced SQL transformations and data warehousing solutions with star-schema modeling for analytics and reporting.
- Built 25+ Airflow DAGs orchestrating reliable, maintainable data pipelines with automated retries and monitoring.
- Implemented data quality validation checks (row counts, null thresholds, schema validation) ensuring consistent, trustworthy data delivery.
- Optimized SQL queries and warehouse performance, reducing average report runtime from 8 minutes to under 2 minutes.
- Collaborated remotely with analytics and business teams to deliver data solutions meeting enterprise client requirements.
- Documented pipeline architectures, data flows, and operational runbooks for team knowledge sharing.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Built Python and SQL ETL scripts for multi-source data ingestion and warehouse loading.
- Maintained PostgreSQL and MySQL databases with indexing, query tuning, and schema design.
- Supported enterprise data integration projects with structured logging and version-controlled deployments.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

Enterprise ETL Platform: End-to-end data pipeline with Airflow orchestration, SQL transformations, and warehouse loading for analytics teams.

Data Warehouse Optimization: Schema redesign and SQL tuning project improving query performance and data reliability for business reporting.
