---

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience creating and maintaining optimal data pipeline architectures on AWS. Advanced SQL and Python skills with hands-on expertise in Apache Airflow, Apache Spark, AWS Glue, Databricks, Snowflake, and Redshift. Proven ability to assemble complex datasets, automate manual processes, optimize data delivery, and collaborate with cross-functional stakeholders in dynamic remote environments.

TECHNICAL SKILLS

Languages: Python, PySpark, SQL, Java

ETL/Orchestration: Apache Airflow, AWS Glue, Databricks, Luigi

Data Storage: Amazon S3, Snowflake, Redshift, PostgreSQL, Cassandra, HDFS, Hive

Stream Processing: Kafka, Spark Streaming, Kinesis

Big Data: Apache Spark, Apache Hadoop, data mining, segmentation techniques

Cloud: AWS (S3, Glue, Lambda, Redshift, EC2, EMR)

Tools: Git, Docker, Jenkins, Grafana

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Created and maintained optimal data pipeline architecture processing 5M+ records across batch and streaming workloads.
- Assembled large, complex datasets meeting functional and non-functional business requirements for analytics and reporting.
- Identified and implemented process improvements: automated manual ETL steps, optimized data delivery, and redesigned infrastructure for scalability.
- Built extraction, transformation, and loading pipelines from diverse sources using SQL, Python, and AWS big data technologies.
- Developed analytics-ready datasets and SQL views enabling actionable insights for 50+ business users.
- Worked with product, analytics, and engineering stakeholders to resolve data infrastructure issues and support reporting needs.
- Performed root cause analysis on pipeline failures and data anomalies, implementing fixes and preventive monitoring.
- Built Airflow DAGs and Glue jobs with dependency management, retries, and alerting for production reliability.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python and SQL ETL scripts manipulating and extracting value from large, disconnected datasets.
- Maintained PostgreSQL and MySQL databases with advanced SQL query authoring and performance tuning.
- Supported cross-functional teams in a dynamic environment with strong written and verbal communication.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

AWS Data Pipeline Platform: End-to-end ETL on S3/Glue/Airflow with Snowflake-compatible warehouse loading and automated quality checks.

Analytics Infrastructure: Built data tools and SQL transformations supporting operational efficiency metrics and business performance dashboards.
