PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building batch ETL/ELT pipelines, automated data quality checks, and analytics-ready datasets on Databricks and Azure. Strong Python, SQL, dbt exposure, and Spark optimization with a focus on reliable, observable data platform delivery.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark

Data Engineering: ETL/ELT, dimensional modeling, incremental loads, dbt exposure

Big Data: Databricks, Apache Spark, Delta Lake, query and partition tuning

Quality: Great Expectations, validation frameworks, pipeline monitoring and alerting

Tools: Git, CI/CD (Azure DevOps), technical documentation, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Associate Data Engineer | Celebal Technologies | Pune, India

August 2024 – Present

- Built and maintained production ETL/ELT pipelines using Azure Data Factory, Databricks, and PySpark processing large-scale enterprise datasets.
- Implemented Delta Lake lakehouse architecture with Bronze/Silver/Gold medallion layers, Unity Catalog governance, and row/column-level security.
- Developed CDC-based ingestion and metadata-driven pipeline frameworks for reliable batch data movement across Azure Data Lake and curated layers.
- Applied data quality checks using Great Expectations and validation frameworks, reducing silent data failures in downstream analytics.
- Optimized Spark jobs and SQL transformations for performance, cost efficiency, and scalability on Azure Databricks.
- Created dbt models, architecture documentation, and solution proposals; mentored junior engineers on data engineering best practices.
- Contributed to POCs involving Delta Live Tables (DLT), Asset Bundles, and modern lakehouse platform design.
- Implemented automated data quality checks and monitoring to reduce silent failures in production pipelines.
- Delivered curated marts and documented transformations supporting reporting and operational analytics.

Software Developer Intern | Upraised | Bengaluru, India

May 2024 – August 2024

- Delivered production features using React, TypeScript, and GraphQL; resolved 50+ bugs and shipped 5 key product enhancements.
- Worked with data querying patterns via GraphQL/Apollo in a monorepo microfrontend architecture.

EDUCATION

Bachelor of Technology in Computer Engineering

DIT University, Dehradun | 2020 – 2024 | CGPA: 8.4

CERTIFICATIONS

- 5x Microsoft Certified (including Azure Data Engineer Associate DP-203)

- 4x Databricks Certified (Data Engineer, Lakehouse, Fundamentals, Generative AI)
