PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience designing scalable ETL/ELT pipelines, data warehousing solutions, and data preprocessing workflows for analytics and AI/ML applications. Proficient in Python, SQL, Pandas, NumPy, and Apache Airflow with exposure to Spark, Hadoop, and cloud platforms (AWS, GCP). Skilled in data cleaning, feature engineering, data governance, and collaborating with AI/ML engineers to deliver high-quality datasets.

TECHNICAL SKILLS

Languages: Python, SQL, R (exposure)

Data Analysis: Pandas, NumPy, Scikit-learn, exploratory data analysis, feature engineering

Data Engineering: ETL/ELT pipelines, data warehousing, data cleaning, preprocessing workflows

Big Data: Apache Spark, PySpark, Hadoop, Databricks (exposure)

Cloud: AWS (S3, Glue, RDS), GCP (BigQuery exposure), Azure

Orchestration: Apache Airflow, Talend (exposure)

Governance: Data quality frameworks, metadata management, validation and monitoring

---

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Designed, developed, and maintained efficient ETL/ELT pipelines supporting data ingestion, transformation, and loading for analytics and ML workloads.
- Performed data cleaning and preprocessing workflows detecting and resolving missing, duplicate, and inconsistent data across 5M+ record datasets.
- Built reusable feature transformation pipelines and curated datasets for downstream AI/ML model training and evaluation.
- Managed and maintained data warehouses (Redshift, PostgreSQL) ensuring data integrity, availability, and performance.
- Extracted information from diverse sources including databases, REST APIs, documents, and external data feeds.
- Established data validation, quality assurance, and monitoring processes with automated alerting.
- Collaborated with AI/ML engineers and analysts to understand data requirements and deliver optimized pipeline solutions.
- Maintained comprehensive documentation of data processes, pipelines, and infrastructure.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Built Python ETL scripts for multi-source data ingestion with cleaning and normalization stages.
- Developed SQL data models and reporting views for business analytics dashboards.
- Supported data governance practices including schema documentation and access controls.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

ML Data Pipeline: End-to-end ETL with feature engineering, data validation, and curated datasets for model training workflows.

Data Quality Framework: Automated cleaning, validation, and monitoring pipeline with governance documentation.
