---

PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience writing production ETL jobs using PySpark and SparkSQL, with deep hands-on expertise in Apache Spark, AWS Glue, and AWS EMR. Skilled in SQL queries, stored procedures, and the Spark DataFrame API for large-scale data transformations. Passionate about data quality, scalable pipeline design, and collaborating with analysts and data scientists to deliver business-ready data products.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark, SparkSQL

Big Data: Apache Spark 2.x/3.x, DataFrame API, distributed transformations, partitioning, caching

AWS: AWS Glue, EMR, S3, Lambda, IAM

Data Engineering: ETL/ELT, Airflow orchestration, data quality validation, incremental loads

Databases: PostgreSQL, MySQL, Amazon Redshift

Tools: Git, Docker, Grafana, DataOps practices

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Wrote production ETL jobs using PySpark and SparkSQL processing 5M+ records daily across S3, Glue, and Redshift with optimized repartitioning and caching strategies.
- Built and maintained 25+ Airflow DAGs orchestrating AWS Glue and EMR Spark jobs with retry logic, SLA monitoring, and failure alerting.
- Applied advanced Spark DataFrame transformations (joins, window functions, UDFs, aggregations) for complex business logic and metric computation.
- Developed SQL queries and stored procedures for PostgreSQL and Redshift analytics workloads with query tuning and indexing.
- Implemented automated data quality checks (row counts, schema validation, null thresholds) ensuring reliable downstream metrics.
- Collaborated with business analysts and data scientists to understand domain requirements and deliver flexible, scalable data products.
- Reduced batch processing time by 40% through Spark job optimization, partition tuning, and incremental load patterns.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Developed Python and PySpark ETL scripts for API and file-based ingestion with schema validation.
- Maintained PostgreSQL databases with SQL stored procedures and query optimization for reporting workloads.
- Participated in code reviews, Git workflows, and agile ceremonies supporting DataOps practices.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

AWS EMR Spark Pipeline: End-to-end PySpark ETL on EMR with Glue catalog integration, Airflow orchestration, and data quality gates.

Real-Time Event Processing: Kafka + Spark Streaming pipeline with fault-tolerant consumers and dead-letter handling.
