PROFESSIONAL SUMMARY

Data Engineer with 2+ years of experience building ETL pipelines, data warehousing solutions, and highly available distributed data systems. Strong SQL expertise with solid data structures and algorithms foundation. Experienced in analyzing raw data, improving data quality and efficiency, and delivering business insights through reliable data extraction, ingestion, and processing pipelines at scale.

TECHNICAL SKILLS

Languages: Python, SQL, Java

Data Engineering: ETL/ELT pipelines, data warehousing, data modeling, incremental loads

Data Structures & Algorithms: Efficient data processing, optimization, distributed computing concepts

Databases: PostgreSQL, MySQL, Amazon Redshift, MongoDB

Distributed Systems: High-availability ingestion, large-scale data extraction and processing

BI Tools: Power BI, Tableau, SQL-based reporting

Cloud: AWS (S3, Glue, Lambda), Git, Docker

PROFESSIONAL EXPERIENCE

Data Engineer | CloudBridge Analytics | Remote, India

June 2023 – Present

- Built and operated highly available, distributed data systems for extraction, ingestion, and processing of 5M+ record datasets.
- Analyzed raw data from multiple sources, improving data quality and efficiency through validation and cleansing workflows.
- Developed ETL pipelines using Python and SQL with schema validation, error handling, and structured logging.
- Designed data warehousing solutions with star-schema models supporting business intelligence and reporting needs.
- Conducted complex data analysis and prepared datasets delivering actionable business insights to stakeholders.
- Evaluated business needs and objectives, translating requirements into scalable data systems and pipelines.
- Interpreted trends and patterns in large datasets to support data-driven decision-making.
- Maintained data management fundamentals including storage principles, indexing, and query optimization.

Associate Data Engineer | InfoTech Solutions | Dehradun, India

January 2022 – May 2023

- Built Python ETL scripts for API and file-based data ingestion with data quality checks.
- Developed SQL data models and Power BI dashboards for sales and operations reporting.
- Maintained PostgreSQL databases with performance tuning for analytics workloads.

EDUCATION

Bachelor of Technology in Computer Science

Graphic Era Deemed to be University, Dehradun | 2019 – 2023

CERTIFICATIONS

- AWS Certified Cloud Practitioner

KEY PROJECTS

Distributed ETL Platform: Scalable ingestion and processing pipeline with data quality validation and BI reporting integration.

Data Warehouse Pipeline: SQL-based warehousing solution with dimensional modeling and automated ETL workflows.
